## splitboard crampons

### CRAMPON INSTRUCTIONS

1) Attach included longer Slider Pin to your binding. Attach using girth hitch method. Must use LONGER Slider Pin with crampon.

2) For Fixed mode, rotate black block parallel to crampon. Slide notch at back of crampon under heel pad. Holes of crampon line up with touring bracket holes. Slide pin through and secure binding and crampon.

### FIXED MODE

3) For Mobile mode, rotate black block perpendicular to crampon. Slide the binding onto black block and align holes of crampon to touring bracket. Slide pin through and secure binding and crampon.

### MOBILE MODE
